[Scanned from a Xerox Multifunction Printer.pdf](#)

Hello Terry,

Place all the scanned images and the list you spoke about in the BGW link located in the email below. Please notify me when you place items in there and I will retrieve them. As for cropping out the digital images, yes, please crop them and provide. Attached to this email I drew a red rectangle on the "Initial Study Area – Sediments" map indicating the area to crop. Crop approximately to the inside of the red rectangle.

As for the list of aerial photographs only available on film/negatives, [REDACTED] [REDACTED] I do not think it is necessary to provide the cost of scanning the film, since it is DNR's obligation to provide at DNR's cost.

Sincerely,  
Rolin
